

Introduction

Allship Engineering is based in the Sydney and Henderson Regional Maintenance Centres and provides exceptional project management, trade labour, design, parts and materials to Defence Marine, Commercial Marine and Commercial Clients within Australia. Allship prides itself on being a trusted partner of Government, and an employer of over 25% Australian Defence Force veterans. This enables Allship Engineering to harness the extensive range of skills, qualifications, and experience critical to Defence Industries.

Experience

Allship Mechanical division has a combined 35 years' Defence and Commercial Marine Experience. Allship Insulation division has a combined 23 years' experience in Defence and Commercial Marine. Allship has a suite of qualified Mechanical Fitters, Fabricators, Coded Welders, Boilermakers and Marine Insulation Specialists. This is supported by a dedicated HSEQ Department - HSEQ Manager, HSE Advisor and Quality Officer-Welding.
